Sum of Profit and Sum of Sales by Category and Year

Sum of Profit Sum of Sales

Sum of Profit by State

Key observations

- Furniture underperforms in regards to the profits even though it has more sales compared to Office supplies in 2014
- Sales peak during November
- Canon Image class 2200 copier product has the highest sum of sales compared to other products
- Technology made the highest sales out of the other categories
- The West region brings the most revenue
- California is the top performing state
- In 2014, there was an increase in sales of all categories

Recommendations

1. Focusing on high-Margin Product categories; The market should be shifted towards high marginalized categories to maximize profitability.
2. Targeting high-performing Regions like California, New York, and Texas contribute the largest share of sales through strengthening distribution networks
3. Improving underperforming Regions that show significantly lower sales like Utah by conduct regional market research to understand low performance.
4. Monitor profitability not only Sales volume because high sale figures don't always translate to higher profits thus avoid over-discounting products that have thin margins, and look for opportunities to increase profitability through supplier negotiations.
5. Enhance Customer retention strategies by implementing loyalty programs, personalized email offers, and after-sales support to increase customer value for long
